Fantasy Premier League (FPL):

Overview:

- Biggest fantasy football app with over 10 million Players
- Only focuses on the English Premier League

Main Features:

- No real AI usage but they do provide player comparisons on statistics but this is just a higher or lower system
- They also provide statistics on each player and team that can be viewed
- League creation system and points system

UEFA Champions League Fantasy:

Overview:

- Very similar to the FPL app
- Only focuses on the Champions League

Main Features:

- No AI usage or statistics usage it is purely for creating leagues with friends
- League creation system and points system

Fantasy Football Hub:

Overview:

- Their focused is AI based reviews and recommendations
- Only focuses on the English Premier League as well
- Most features are behind a paywall

Main Features:

- Main focus is AI based user recommendations such as AI Transfers, AI team selection, Points predictions, fixture analysis & player comparisons
- They do not have a league creation system and points system, this is purely for selection and not their own fantasy football league
-
